MILLS IS HELD

No Testimony Offered By the Defense.

NO ATTEMPT WAS MADE TO SHOW THE MOTIVE

Prosecution Merely Proved That Mills Rilled O'Melvency.

Testimony Was Much the Same as That at the Inquest - Letters From a Lady Found On O'Meveney's Body-Chof Clerk Critzer's Testimony Differed Somewhat From That at the Inquest-Chief Hiiton's Knowledge of Case.

Appearance of Mills.

When Captain Mills came into the fittle court room of Justice Sommer accompanied by two deputy sheriffs, he didn't look much like a man who would do any shooting. With a black frock coat and black trousers he looked much like a country minister. He took a seat against the wall hidden among a crowd of spectators. His brother-thisw, Bee, Jacob Mills of Helena, Mont, who has come here out of sympathy, sat in front of him in the position that might have been occupied by the pulsener, but he was bidded away behind the Rev. Mr. Mills, crouched in his chair with his lead and face purtly covered by one hand. He was furtice and fiderity and he watched the proceedings with evident nerromness.

and fidgety and he watched the proceedings with evident nerconsness.

There was not so large a crowd as was expected, but Justice Sommer's offices were crowded with persons auxious to see the defendant and to hear the facts of the case.

The complaint was read to Captain Mills as he stood up, charging him with murder in the first degree.

County Surveyor Wilkes, who had prepared a plat of the rooms in the Short Line offices, spent some time in explaining it. He showed the location of Mr. O'Melvency's desk and its position with relation to the other room No. 3% in which the clerks of his department worked.

Mr. Van Kulen's Testimony.

Mr. Van Ku.en's Testimony.

The first witness of any consequence was Mr. Van Kuran, local treasurer of the Short Line. He said that he was talking with Mr. O'Melveney just before Captain Mills came in. Chief Cierk had been in the room once. When Cartain Mills went in between "No," said the 250 and 4 o'clock Van Kuran was just leved the evide. 2:19 and 4 o'clock Van Kuran was just about leaving and Mills, who passed him, said, "How do you do," and approached Mr. O'Melveney, seated at his desk. Mills had came in through room 35 and walked in a southensterly direction toward the chief engineer.

Almost as seen as he had reached his desk in another room and sait down he heard reports like the tapping of a hammer. Then they called to him from the engineer's office. O'Melveney was slitting dead at his desk as before. He noticed the bullet wounds in his head. Captain Mills said nothing to him.

On cross-examination Judge Powers brought out the fact that Van Kuran would have to go twenty-five or thirty

and had his attention not been drawn to the sounds he would not have known

Chief Clerk Critzer's Story

Chief Clerk Gritzer's Story.

Chief Clerk W. E. Critzer gave testimony which varied materially from his statements at the inquest. Judge Powers for the defense had believed that Critzer was mistaken when he said that he heard Mr. O'Melvensey speak to Mills after the first shot. Critzer had said at the inquest that he heard o'Melvensey way. "What are you doing, Fred?" He did a mention this in his testimony before Judice Sommer.

'How many shots were fired?" asked Aftorney Putnam.

"Three, sounding like a popgun," said Critzer. "When I heard the reports I opened the door and Mills was coming toward the door with his revolver in his hand. He threw it upon the table in the center of the room. I took hold of his arm and asked him what he had done.

When I returned to room 30 I saw Mr. O'Melveney sitting in his chair and we lifted him up and put him on the table in the center of the room. These were three builet wounds in the right side of his head. I picked up the gun and saw that there were three empty chambers. I handed it to Dr. Pinkerton and he placed it on O'Melveney's deak."

his death.

P. W. Brenneman, a clerk in the mail room, saw Mills go into room 23 from the hall and he saw Van Kuran come out. There was smoke in foom 23 when he entered. When Critzer brought Mills to the room he stood there, but said nothing. Brenneman telephoned for Dr. Pinkerton and also a second time to the police station, asking the sergeant to hurry up.

Heard the Shots.

Heard the Shots.

T. C. McCune, a clerk and stenographer in the engineering department, room 38, saw Mills come into the room and go on into room 33. He heard three reports, sounding like pistod shots or a box dropping. He had heard no struggle in the room prior to the shooting.

"I understood you to say the shots sounded like a box dropping," said Judge Powers. "Then you wouldn't have been surprised to see that it was a box dropping?"

"No."

Spoke to Jenkinson.

The first man to whom Mills spoke then he went out was C. H. Jenkinson, who works in the mail room of the railroad company.

When Mills was brought into the mail room by Critzer, he said: "I have shot O'Melveney. I want you to call the sheef?"

Chief Hilton's Testimony

Chief Hilton told how he, Detective Sheets and Sergeant Burbidge had ex-amined the rooms. He said that when they arrived O'Melveney's body lay upon the table. He told of the wounds upon the table. He told of the wounds and said that he took the pen and tablet which O'Melvenny was using at the time of his death. Critzer gave him the weapon, which had been in his possession ever since. It smelt plainly of recently burned powder. He said that the watch and money and papers taken from O'Melveney's clothes were turned over to Mr. Critzer on an order from Luxice Sommer.

The defendant is held on the charge

The defendant is held on the charge of murder in the first degree and given to the custody of the sheriff without ball, said Justice Sommer.

There was no change in Captain Mills, for he had expected no other conclusion. He was taken to Judge Powers' office, where he talked with his brother-in-law, Rev. Jacob Mills and with his attorneys for a half hour. Then he was removed to the county jail.

The Hand of Providence.

'It is impossible to trace our history since without feeling that the Providence which was with us in the beginning has continued to the nation his gracious interposition. When, unhappily, we have been engaged in war, he has given us the victory. Fortunate indeed, that it can be said we have had no clash of arms which has ended in defeat, and no responsibility resulting from war is tainted with dishonor. In peace we have been signally blessed, and our progress has gone on unchecked and our progress wealth of soil and mine and forest nature has favored us, while all races of men of every nationality and climate have constributed their good blood to make the nation what it is.

'From 1,829,234 in 1799, our population has grown to upwards of 62,000,000 in 1890, and our estimated population today made by the governors of the states is 17,820,231. We have gone from thirteen states to forty-five. We have annexed every variety of territory, from the coral reefs and coconnut groves of Key West to the key regions of northern Alaska—territory skirting the Atlantic, the Gulf of Mexico, the Pacific and the Arctic, and the islands of the Pacific and Carribbean sea, and we have ex-
